ITER Communication Activities in China

ITER CN DA

Presented at 4th Communication Meeting in Moscow on 17-18 May, 2010
Participants of CN DA

• Ms. Bai Yanbing
  Director, Department of Basic Research, Ministry of Science & Technology

• Mr. Yang Changchun
  Senior Engineer, Division of Research & Development, ITER CN DA

• Ms. Liu Lili
  Project officer, Division of International Cooperation, ITER CN DA
Outline

• Introduction of CN DA
• Communication Means at CN DA
• Communication Activities at CN DA
• ITER & Nuclear Fusion Energy Exhibition
• Summary and Welcome
Basic Information of CN DA

• Establishment
  Official Establishment on 10 Oct., 2008

• Full Name
  China International Nuclear Fusion Energy Program Execution Center

• Relation with government
  public institution, affiliated to MOST

• No. of staff
  23 professional staff and 15 seconded / contracted staff

• New team & New office
Organizational Structure of CN DA

Ministry of Science & Technology

Experts committee on MCF

ITER CN-DA

- Division of Project Management
- Division of Technical Engineering
- Division of Administrative Affairs
- Division of International Cooperation
- Division of Research & Development
LOGO of CN DA
Communication means

• Website
• Press conference
• Television media
• Newspaper
• Academic journal
• Lecture
• Exhibition
• Others
Communication means(1)

Website:

• Home page of CN DA will be launched before IC-6
  www.iterchina.cn
• Home page of MOST
  www.most.cn
• Intranet of CN DA
• Other webs:  http://www.swip.ac.cn/
  http://www.ipp.ac.cn/
Communication means(2)

Press conference

• Two sections each year in China: NPC & CPPCC

• Press release in MOST
Communication means (3)

Television media

President Hu’s inspecting
Western Superconducting Technologies Co, Ltd
Communication means (4)

Others

• Lectures: DDG’s speech in colleges and universities
• Newspaper: news or notices in S&T daily
• Exhibition
Communication activities

- Guests from ITER members visiting CNDA
- Governmental leader visiting CNDA, related institute or companies
- Bilateral or multilateral meetings
- Publicizing the recruitments of ITER staff

• Total Area: Nearly 1,000 square meters

• Object: IC-6 present members, local residents, students, ant other related people
Four parts of exhibition:
• In kind and sample
• ITER Model
• Display boards
• Multimedia

Visiting route
Exhibition(1)
Display in kind and samples

• In kind referred to the Procurement Packages currently allocated to China

• Samples
Exhibition(2)
ITER Model

- Size rate of the model 15:1
- Material
- About 2 meters in height, 2 meters in diameter
- It will be delivered to CNDA office after the exhibition
ITER Model (15:1)
Exhibition (3)
Display boards/Poster

• Introduction of ITER project
• Development history of ITER
• Current status of ITER
• CNDA’s role in ITER
• Procurement Packages allocated to China
• Nuclear fusion R&D in China
• ITER Members’ main Fusion facility and progress!
Exhibition(4)
Multimedia

• Principle of nuclear fusion
• ITER device
• Introduction of CNDA
• Cartoon display
• News coverage
Ask for......

• Providing relevant documents for the exhibition.

• Any suggestion for the exhibition & IC-6.

• liull@iterchina.cn  liulili419@hotmail.com
Welcome

• Welcome to Suzhou!
• Welcome to Shanghai World Expo!
• Welcome to China to have the next Com Meeting!
