In the heart of Provence

Roughly one hour from Marseille, the ITER site is located in the heart of a region renowned for its diversity of landscapes and lifestyles as well as its high scientific, technical and economic environment.

Over the next years, 39 buildings and facilities will be built on the ITER worksite at Cadarache.

By late 2015, the personnel directly involved in construction is expected to reach its maximum capacity of 3,500.

More than 2.6 billion euros of industrial contracts have been signed up to now and the major part is up coming.

Industrial Partnerships  Networking  Immigration  Transportation  Relocation  Human Resources  Business Setup
The ITER project brings together China, South Korea, Europe, the United States, India, Japan and Russia. International leaders, high-tech companies, specialized laboratories and SMEs will come from all over the world to build ITER in Cadarache. A strong regional network has been deployed to welcome them and provide services matching their needs.

**IMMIGRATION & ACCOMMODATION**

Who can help me with official procedures and formalities to meet for my employees?

The Welcome Office of the Agence Iter France (AIF), created in 2006, offers a wide range of personalized services to the different types of staff involved in building ITER (ITER Organization, ITER Domestic Agencies, contractors), such as accommodation, administrative formalities, intercultural language program.

- Interface with the French authorities for administrative procedures to be followed by employees working for foreign companies (outside the European Union) or their employers during their secondment to the ITER project in France (work permits, residence permits, short-stay visas, long-stay visas, etc.),
- Effective solutions to find accommodation, a partnership for relocation services.
- Transport arrangements,
- Immigration (setting up businesses), staff transfers.

**RELOCATION SERVICES**

Who can help me for the relocation of my employees?

A partnership between AIF, WOIC and three relocation agencies has been created in order to help you to find solutions within existing accommodation facilities.

**Contact**

- Interdean / Amélie Wilcken
- CSE-Mobilite / Céline Thiery
- The Provence / Laurence Claissé-Ebbo

**HUMAN RESOURCES**

Who can advise and guide me during the recruitment process and how to operate?

Pôle Emploi and its partner, PACA Mode d’Emploi, will provide you a tailor made approach to your project:

- Information on labor market
- Identification and selection of candidates
- Training before hiring process
- Finance schemes

cellule.iter@pole-emploi.fr

**INDUSTRIAL PARTNERSHIPS**

Who can help me find partners and sub-contractors to work with me on the ITER project?

Since 2006, the French ITER Industrial Committee (C2I) has been facilitating partnerships by involving more than 300 French industrialists in the project and organising optimal conditions so they can answer calls for tender efficiently.

- Forum and pre-competitive networking
- Partnerships and Contacts
- Industrial Conferences (ITER Business Forum)
- Business to Business meetings
- Information on calls for tenders

**BUSINESS SETUP**

Who can I contact to find premises and set up my activity near around ITER?

The Welcome Office for International Companies (WOIC) and its partners provide customized, confidential and free of charge support to help the companies implement their activity in the ITER region.

To facilitate the business process, the WOIC can be contacted in order to:

- Understand the ecosystem
- Find a site (offices, plots of land, warehouses, workshops, …)
- Identify potential incentives
- Meet local companies and public bodies
- Get involved in the regional clusters
